But I will restore you to health and heal your wounds, declares the Lord.

- Jeremiah 30:17

October is National Breast Cancer Awareness Month.

Breast cancer is the second most common type of cancer in women – about 1 in 8 women in the United States will be diagnosed with breast cancer in her lifetime. Communities like ours can make a difference by increasing awareness about the risk factors associated with breast cancer and ensuring access to healthcare providers who can provide screening and treatment for this disease.

At MLH: We offer the latest advancements in mammography and breast diagnostic testing. These services are available across our system at the locations listed below. Schedule your mammogram today by calling **(901) 516-9000**, because early detection is key in the fight against breast cancer.

Methodist Comprehensive Breast Center - Midtown 1801 Union Avenue • Memphis, TN 38104

Methodist Comprehensive Breast Center - Germantown 1381 S. Germantown Road • Germantown, TN 38138
